DETAILED ACTION

Allowable Subject Matter

1. Claims 1 and 3-5 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1 and 3-5 are allowable because of the punch and die tooling apparatus with a die defining a through bore with a horizontally extending ridge for engaging and tipping the work piece and a partially circumferential relief to facilitate the tipping with the partially circumferential relief being opposite and vertically closer to the top than the ridge as set forth in the claims. Maceyka discloses a horizontally extending ridge a partially circumferential relief but fails to disclose the relief is vertically closer to the top than the ridge. Taylor (2,708,970) discloses a punch and die but fails to disclose the die has a horizontal extending ridge. The bottom portion (labeled as 101 in Appendix A in the previous Office action) is horizontal extending however cannot be considered a ridge. None of the prior art cited discloses a punch and die tooling apparatus that incorporates a die defining a through bore with a horizontally extending ridge for engaging and tipping the work piece and a partially circumferential relief to facilitate the tipping with the partially circumferential relief being opposite and vertically closer to the top than the ridge to tip or rotate the cut work piece or slug as it after it has been cutout. Therefore, in view of what has been stated above, the claims are allowable over the art of record.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
